## Lifestyle

Trillium Pet Care obedience classes are geared towards the dog owner who simply desires a well behaved family pet. Our goal is to educate owners in the tried and true training method of positive reinforcement. It is our desire to have both you and your dog enjoy spending your training time together! We strive to adapt each learned skill into your daily living so as to result in a dog that is easy to live with and a true part of your family pack. We are happy to answer real life dilemmas with real easy solutions. Problems often disappear as your dog begins to learn and understand what is actually expected of it! Obedience training is really teaching your dog how to speak "human". As such it will greatly enhance the human - canine bond. Our classes will also establish a firm foundation for those pet owners who desire to move forward into dog sport competitions like Obedience, Rally, Agility, etc.
